NUM505P	NUM'AXES - PIE1048 TRAPS PACK (with batteries and SD card)	Vente libre	6.9	9.3	13.5	263	173.00 € incl. tax

This camera trap allows surveillance of its territory (forest or house).

This photographic trap will correspond to people looking for a way to monitor their property (wood, house...) or an animal presence on a territory.

- Up to 16 million pixels, Full HD video
- Triggering 0.2 to 0.6 seconds after detection.
- Detection at 20 m on an angle of 90°
- Field of view 55°
- 940nm 'no-glow' flash, no visible flash
- 3 modes: photo, time lapse, video
- 1/4" leg nut
- Non-contractual visuals

PIE1048 Trail Camera Features

- PIR sensor (motion detector):
 - Wide detection angle: 90°
 - Detection distance: about 20m
 - Adjustable sensor detection sensitivity: low / medium / high
- Infrared flash:
 - Invisible black LEDs - Wavelength: 940 nm
 - Range: approx. 20 m
 - Infrared flash with automatic activation depending on the brightness

- Shooting angle: 55°
- Trigger speed: between 0.2 and 0.6 seconds
- Capture modes:
 - Photo: 1 to 3 photos per release
 - Video with audio recording: programmable duration from 5 seconds to 10 minutes
 - Photo + Video with audio: a photo then a video are taken with each release
- Photo resolution: 1 MP / 3 MP / 5 MP / 8 MP / 12 MP / 16 MP
- Photo file format: JPEG
- Video resolution: QVGA / VGA / 720x480 / HD 720P / Full HD 1080P
- Video file format: AVI
- PIR detection mode: the device takes photos or videos when the PIR sensors (motion detectors) detect activity in the area they cover
- Time Lapse mode: photos or videos are taken automatically at regular time intervals during a user-defined time range
- Timestamp on photos
- Memory: SD or micro SD card with adapter from 4 GB to 32 GB, class 10 minimum (not included). The device also works with the NUM'AXES micro SD card with 64 GB adapter. 64GB memory cards from other brands may not work. You can get micro SD cards with adapter at any time on this site (8 GB, 16 GB, 32 GB or 64 GB).
- Programmable device identification number: identifies where and by which device a photo was taken (very useful when you have several devices)
- programmable password
- Loop recording function available: when the SD card is full, the camera continues to record photos/videos by deleting the oldest photos/videos

Reliable and efficient

- 2 years warranty
- Designed to withstand the weather (IP66)
- Compatible with external power supply (power supply or solar panel)

Ergonomics of the PIE1048 camera trap

- Weight: 263 g (without batteries)
- Dimensions: 135 x 93 x 69mm
- External power supply possible (6 V / 1 A)
- 2.4 inch TFT color LCD screen Mini USB 2.0 port for downloading files

This pack contains, in addition to the photographic trap, 8 AA LR6 batteries for operation and a 32 Gb memory card to store your shots.
