A massive muzzle brake for maximum attenuation!

The Audere Hammerhead Muzzle Brake is designed to provide exceptional recoil and barrel lift mitigation, improving the stability and accuracy of your shots. Made from high-grade steel with a black nitrided finish, it is compatible with a wide range of calibers and threads, adapting to the needs of the most demanding shooters.

Technical characteristics:

- **Material** : High quality steel
- **Finish** : Black Nitride
- **Compatible calibers** : .30/7.62, .338, .375, .408/.416, .50
- **Available threads** : 5/8"-24, M18x1, 3/4"-24, M22x1.5, 7/8"-14, M25x1.5, 1"-14
- **Weight** : Varies depending on caliber and thread (eg: 403g for .30/7.62 with 5/8"-24 thread)
- **Length** : Varies by model
- **Accessories included** : Lock nut for position adjustment

- **Compatible calibers** : .30/7.62, .338, .375, .408/.416, .50
- **Available threads** : 5/8"-24, M18x1, 3/4"-24, M22x1.5, 7/8"-14, M25x1.5, 1"-14
- **Weight** : Varies depending on caliber and thread (e.g., 403 g for .30/7.62 with 5/8"-24 thread)

The Hammerhead™ is designed for military, law enforcement, and shooting sports users. This series is made of high-quality black nitrided steel and is engineered to handle the impressive amount of gas generated by the most powerful calibers through two specially designed ports with different exhaust angles. The ultra-wide, dual-chamber design provides significant recoil reduction by diverting gases. The muzzle brake's mass also helps limit muzzle rise and weapon recoil. A locknut is included for adjusting the muzzle brake's position, simplifying installation. Available in multiple calibers, including .30/7.62, .338, .375, .408/.416, and .50, with various threads such as 5/8"-24, M18x1, 3/4"-24, M22x1.5, 7/8"-14, M25x1.5, and 1"-14, the Hammerhead fits a wide range of firearms. Whether you're a professional or a passionate amateur, the Audere Hammerhead muzzle brake is an ideal choice for maximizing your firearm's performance.
