## A very high-tech sports rifle. Also available in a left-handed version!

This revolutionary new system completely changes the way the gun barrels and body lock when the rifle is closed, making the whole system incredibly tougher.

For the first time, you can measure the life of your gun not by how long you can shoot it, but how long your children and grandchildren will continue to use your gun!

- Adjustable stock
- Rubber butt plate
- Delivered with 8 long external chokes
- The wider receiver provides a larger contact surface with the metal structure of the handguard, increasing resistance while reducing friction.
- In order to reduce vibrations, an elastomer spacer has been added between the release button and the wood of the handguard.

### DPS relaxation

The new **DPS (Durability, Precision, Speed) trigger** features innovative hammer designs with new geometry and tighter tolerances.

In addition, the hammers benefit from an industrial chrome plating designed to have a minimum coefficient of friction and allow better lubrication. This makes the trigger mechanism durable, precise and regular.

**Invictus Cams**

Revolutionary **Invictus cams** do away with traditional trunnions and hinges.
This system makes the Invictus the first double-barreled shotgun that allows the connection point of the barrels and the receiver to be moved. This allows the guns to be moved back to eliminate a potential thunder day.

**invictus lock**

The **Invictus bolt** significantly increases the locking surface between the barrels and the receiver, incredibly extending the life of the set.
This part is also replaceable, thus multiplying the longevity of the mechanism. In this way, a rifle is obtained which, from the outset, is more resistant and durable, but which in addition can be rebuilt in a unique way among the superimposed ones.

Also available in Tap, Trap Impact and Ascent versions

CG593 Sporting model, 76 cm barrel, flat rib

- CG594 Sporting model, 81 cm barrel, flat rib
- CG592 Trap Impact model, 76 cm barrel, adjustable half-high rib
