### Crosse Monte-Carlo spécialement étudiée et réalisée pour les femmes et les petits gabarits !

Over the years, many gun manufacturers have considered producing guns for women. Some gave up quickly, believing that the production effort required was too great for such a marginal market. Others made unconvincing and authentic attempts, making weapons with a shortened butt and bright colors. With Syren, however, it's a whole different story.

As a division of Caesar Guerini and Fabarm, Syren aims to provide products specifically designed for women. We want to end compromise. No more modifying existing products, painting parts of guns to camouflage the modifications and using children's guns as if it were the only option available. Our guns and accessories are designed by women for women. Everyone involved in the Syren project, from female management to staff, is committed to ensuring our shooters get the best possible product for their needs and without compromise.

- Handle closer to the trigger - 75mm
- Shorter stock 355 mm
