High power 4.5mm or 5.5mm Gamo Break-Barrel air rifle with its 3-9 x 40 wr scope

High power air rifle in 5.5 mm (.22) caliber for long distance shooting or destruction of pests.

Very efficient for shooting on a metallic gong, its 45 joules allow you to swing gongs that a standard air rifle would not move.

Supersonic lead out of the barrel (390 m / s)! Trajectory not very sensitive to the wind thanks to the heavier weight of the 5.5 mm lead: about 1g against about 0.5g for a 4.5mm.

- Fiber optic sighting device
- Relaxation with manual safety
- Elevated prismatic 11 mm rail with rear window lock
- Break barrel arming, spring compression

3-9x40WR scope

Variable magnification up to 9x for distance shooting and x3 for closer shooting with a wider field of view.

Top selling among Gamo glasses.

Top value for money, these glasses are best suited to the constraints imposed by the detents of the pellet rifle springs.

Category D weapon subject to registration
