AK0600	Kastelberg Heavy Duty Quick-Release Picatinny Bipod	Vente libre	24	690	21mm rail	229.00 € incl. tax

A robust bipod designed to offer maximum stability on Picatinny rail, ideal for precision shooting.

The **Kastelberg heavy bipod** attaches directly to a **Picatinny rail** thanks to its **quick-release** system. Its reinforced construction, **adjustable legs (19-24 cm)**, **5-position** locking mechanism, and **extra-wide feet** ensure excellent stability for precision shooting and intensive training sessions.

- **Brand:** Kastelberg
- **Type:** Heavy bipod
- **Mounting:** Picatinny rail
- **Mounting:** Quick removal
- **Adjustable height:** 19 to 24 cm
- **Leg adjustment:** 5 positions (5 notches)
- **Weight:** 690 g
- **Pads:** Extra-wide, non-slip

A reinforced design for weapons equipped with a Picatinny rail

Developed for users seeking a particularly robust support, this **heavy-duty bipod** offers excellent rigidity thanks to its reinforced construction. Its weight of **690 g** contributes to overall stability without compromising quick setup.

Picatinny mount with quick removal

The mounting system allows for installation and removal in seconds on a **Picatinny rail**. This is a real advantage when multiple weapon configurations are used or when quick disassembly is required between sessions.

Precise height adjustment

The telescopic legs offer an adjustment range of **19 to 24 cm** . The **5-position** locking system ensures consistent positioning and excellent rigidity. In use, this simplicity is appreciated, allowing you to quickly find the correct height.

Supports designed to stay perfectly in place

The **extra-wide skids** provide a large contact surface, limiting unwanted movement on shooting tables as well as on softer terrain. This design improves user comfort and contributes to more consistent shots.

FAQ

Is this bipod compatible with all Picatinny rails?

It is designed for Picatinny rails conforming to the 21 mm standard and attaches quickly thanks to its integrated clamping system.

What is the height adjustment range?

The height is adjustable from 19 to 24 cm thanks to telescopic feet with five locking positions.

What are the advantages of extra-wide skates?

They improve grip on most surfaces, limit slippage and increase stability during shooting sessions.
