The rifle Daniel Defense lightened barrel rail M-LOK SLW (Short Lightweight barrel)

- 14.5 " cold hammered forged barrel, i.e. 36.83 cm with a 1: 7 stripe pitch
- Handy due to its small size and low weight. Smooth recoil and increased precision.
- Handguard with M-LOK attachment system for significant weight savings
- Black anodized cerakote coating.
- Supplied with 10-shot magazine in the format of a 3-shot, and polymer case.
- Made in USA.
- Daniel Defense semi automatic rifle
- Handguard with 21mm picatinny rail and M-LOK for full adaptability.
- 2.26 Kg without sights
- Caliber 5.56 mm NATO (.223 Remington)
- Supplied without front handle

The **DANIEL DEFENSE** V7 SLW is one of the lightest and fastest rifles in the DDM4 range to handle for a weight contained under 2.267kg. It also has M-LOK® attachment technology with its **DANIEL DEFENSE** MFR 15.0 rail. Built on the basis of a 14.5 "(36.83cm) cold hammered forged barrel, the V7 features an improved **DANIEL DEFENSE** flash hider to reduce barrel exit flash. The mid-length (9 inch or 22.86cm) gas borrow system provides a smooth and reliable duty cycle, reducing perceived recoil and impact on moving parts. The front with M-Lok ® MFR XS 13.5 rail offers considerable weight saving, superior cooling, preserving a large panel of modularity, while maintaining the strength and durability demanded of **DANIEL DEFENSE**.

With the M-LOK 7-position attachment system (sides) as well as its uninterrupted 1913 Picatinny rail on the top, the V7 benefits from substantial spaces to mount optics, sights and accessories. The rifle is finished with a soft touch coating on the stock and grip.

- LOWER RECEIVER: CNC milled 7075-T6 Mil-Spec aluminum casing with Type III Hard Coat Anodized finish. The Magazine Well is reamed and upgraded for quick reloading. Inserts for Heavy

Duty Quick Release Grenadiers (available from SIMAC ref: DDZ002).

- **UPPER RECEIVER:** Black with optical position markings and accessories. M4 power ramp. CNC milled Aluminum 7075-T6, Type III hard anodized.
- **BARREL:** Chrome Moly Vanadium steel, Forged cold hammered. No scratches 1: 7, barrel length 14.5 ? (36.83 cm), M4 profile, chrome and Phosphate coating, Magnetic Particle Inspection (magnetic resonance imaging anti-cracking quality control process), Tested with High Pressure cartridges.
- Direct gas borrow system, CNC-milled 4140 Tempered Steel gas block, hardened Phosphate coating, gas borrowed length: Mid-Length (9 "chromed steel tube or 22.86 cm)
- Daniel Defense muzzle brake in 17-4 PH stainless steel, surface treatment with sodium nitrate. 1?2 × 28 thread
- In front of Daniel Defense MFR 13.5 in Aluminum 6061-T6 picatinny rail on the top and M-LOK on the other sides
- Movable cylinder head assembly: Profile M16, Mil-Spec with Magnetic Particle Inspection, Chrome coating, Gas Key with crimped nuts.
- Black Cerakote finish
