Robust bits for precise and durable screwdriving.

The Wera 800/4 Z slotted bits are designed to deliver optimum performance when driving slotted screws. Their extra-rigid design prevents premature tip breakage, ensuring increased longevity. Compatible with 1/4" hexagonal bit holders in accordance with DIN ISO 1173-F 6.3, they can be easily integrated into your existing equipment. Available in various sizes, these bits meet the varied needs of demanding professionals.

Technical characteristics:

- **Material** : High quality steel
- **Rigidity** : Extra-rigid
- **Compatibility** : 1/4" hexagonal bit holder (DIN ISO 1173-F 6.3)
- **Available lengths** : 50 mm, 70 mm, 89 mm, 152 mm
- **Available blade sizes** : Widths from 3.0 mm to 8.0 mm; thicknesses from 0.5 mm to 1.6 mm

The Wera 800/4 Z range is characterised by its robustness and reliability. The bits are made of high-quality steel, offering exceptional resistance to wear and torsion. Their design allows for efficient torque transmission, reducing the risk of slippage and damage to screws. Whether you are a gunsmith, shooter or hunter, these bits ensure maximum precision and efficiency during your maintenance or assembly operations. Their compatibility with standard bit holders makes them a versatile tool, essential for your tool kit.
