Ensure precise and secure screwdriving with the Wera 867/4 TORX® HF bit, featuring an innovative holding function.

The Wera 867/4 TORX® screwdriver bit is designed for TORX® screws with internal recess. Its unique holding function (HF), resulting from a geometric optimization of the TORX® profile, generates wedging forces that hold the screw firmly on the bit, thus facilitating work in tight or difficult-to-reach spaces. This bit is compatible with 1/4" hexagonal bit holders in accordance with DIN ISO 1173-F 6.3.

Technical characteristics:

- **Product Type** : TORX® Screwdriver Bit
- **Model** : Wera 867/4 TORX® HF
- **Footprint** : TX 8 to TX25
- **Length** : 50 mm
- **Function** : Holding Function (HF)
- **Material** : High quality steel
- **Compatibility** : 1/4" hexagonal bit holder (DIN ISO 1173-F 6.3)
- **Weight** : 7 g

Ideal for gunsmiths, shooters and hunters, this bit ensures easy handling of screws, reducing the risk of dropping or losing them during assembly or maintenance operations. Its robust design ensures increased durability, even under intensive use. Whether for assembling weapons, maintaining shooting equipment or customizing accessories, the Wera 867/4 TORX® HF bit is an essential tool for precise and efficient interventions.
