The Mach 1 pellet rifle in 29 joules IGT

- Nouvelle crosse synthétique avec surfaces granulées anti-dérapantes.
- Système IGT à piston
- Organes de visée fibre optique Truglo.
- Nouvelle plaque anti-recul SWA pour une meilleure absorption du recul.
- 29 joules

The IGT SYSTEM in a few words:

IGT: Insert Gas Technology - Gamo's technological revolution in the world of air rifles! The spring is replaced by an inert gas tube, which allows for constant effort when reloading, greater regularity, less vibration and therefore more precision!

- More speed and penetration (up to 380 m/s)
- Less vibration thanks to the inert gas cylinder
- Better precision and less pneumatic friction
- Less friction wear, longer life
- Adapted armament, very soft (less friction between metals)
- Constant and lasting power (the cylinder always delivers exactly the same power)
- New synthetic stock with non-slip granulated surfaces.
- IGT piston system
- Fiber optic sights.
- New SWA recoil plate for better recoil absorption.
- 29 joules
- Featuring the Maxxim barrel with integrated sound reduction
