NUM450	Canibeeep Pro Kit	Vente libre	114.00 € incl. tax

Electronic bell designed for woodcock hunting, the Canibeeep Pro tracking collar can locate 1 dog.

- Hearing range of the collar: 200 m
- Remote control radio range: up to 300 m
- Adjustable motion detection sensitivity
- Adjustable sound volume
- 4 distinct sounds to choose from on the same necklace
- 8 operating modes:
 - modes 1 to 4: the collar only works when the dog is stationary
 - modes 5 to 8: the collar works when the dog is moving and then stopped

Collar:

- Waterproof
- Battery life: approximately 150,000 beeps
- Weight: 77g
- Dimensions: 38 x 66 x 72 mm
- Power supply: 1 3-volt CR123 A lithium battery (supplied)

Our advice for use:

- The dog must be at least 6 months old.
- Accustom the dog to the collar but also to the sound of the Canibeeep Pro collar. If possible, lower the volume so that your dog gradually becomes familiar with the sound.
- The sound diffuser should be placed upwards so that the sound is not too close to his ears.
- If you decide to train several dogs at the same time, we recommend that you program each collar with a separate sound in order to recognize the dogs (4 sounds to choose from on each collar).
- We recommend not to put the collar on a dog in poor health (heart problems, epilepsy...) or with behavioral disorders.

- Before putting on the collar, it is recommended to have your dog examined by a veterinarian to verify that there are no contraindications.
