NUM'AXES sound beeper collar specially designed for woodcock hunting.

- 12 operating modes:
 - modes 1 to 4: the collar only works when the dog is stationary
 - modes 5 to 8: the collar works when the dog is in motion and then at a standstill
 - modes 9 to 12: the collar beeps only when you press a button on the remote control
- Thanks to the remote control, you can remotely: trigger an audible signal at any time to locate your dog temporarily stop the sound of the collar Reliability and efficiency of the Canibeeep Radio Pro
- 2 years warranty
- Remote control: Water resistant
- Autonomy: approximately 50,000 trips
- Collar: Immersion waterproof
- Battery life: approximately 70,000 beeps
- Ergonomics of the Canibeeep Radio Pro tracking collar

Remote control:

- Weight: 40g
- Dimensions: 96 x 40 x 18 mm
- Power supply: 1 3-volt CR2430 lithium battery (supplied)

Collar:

- Weight: 77g
- Dimensions: 38 x 66 x 72 mm
- Power supply: 1 3-volt CR123 A lithium battery (supplied)

Our advice for use:

- The dog must be at least 6 months old.
- Accustom the dog to the collar but also to the sound of the Canibeeep Pro collar. If possible, lower the volume so that your dog gradually becomes familiar with the sound.
- The sound diffuser should be placed upwards so that the sound is not too close to his ears.
- If you decide to train several dogs at the same time, we recommend that you program each collar with a separate sound in order to recognize the dogs (4 sounds to choose from on each collar).
- We recommend not to put the collar on a dog in poor health (heart problems, epilepsy...) or with behavioral disorders.
- Before putting on the collar, it is recommended to have your dog examined by a veterinarian to verify that there are no contraindications.
