Designed to secure a substantial arsenal while maintaining a refined aesthetic, the Rietti 23-gun safe meets the expectations of the most demanding shooters. Its generous capacity, certified lock, and red velvet finish make it a solution that is as practical as it is prestigious.

A large-capacity safe for long guns

With its usable height of 133 cm and its wooden/foam rack, this model allows for the storage of up to 18 rifles as standard, and up to 23 by removing the shelves. Its modular configuration adapts to different needs - long guns, ammunition, or accessories.

Security and compliance

EN1300 certified lock - Class A

The key-operated locking system activates seven robust bolts via a central wheel. The entire unit is certified to EN1300 Class A standards, with a body and door made of 3 mm thick DD12 steel.

EN 14450 burglary resistance standard

This safe complies with the European standard EN 14450, recommended for the storage of category B weapons. Its fixed installation (floor or wall) is imperative to guarantee its effectiveness and regulatory compliance.

Neat interior finish

The red velvet lining the interior adds a touch of luxury while protecting the weapons from wear and tear. The internal layout also includes a small compartment for ammunition or valuables.

Delivery and installation

Free delivery provided by courier service to ground floor, unopened, in Metropolitan France.

For Corsica, a transport package will be required.

A mobile phone number is required for all safe orders.

- EN 14450 burglary resistance standard

For the possession of category B firearms, it is mandatory to have a safe to keep these weapons out of reach of third parties. Generally speaking, it is strongly advised to keep all firearms, regardless of category (B, C, or D), out of reach of children and potential intruders or thieves by storing them securely in a gun safe. This safe must be securely fixed to the floor or wall.

FAQ

Is the safe suitable for category B weapons?

Yes, this model complies with the EN 14450 standard and has an EN1300 Class A approved lock, making it a suitable choice for holding category B weapons, provided it is wall or floor mounted.

How many rifles can I store there without removing the shelves?

With the shelves in place, the safe can store up to 18 long guns. By removing the shelves, the maximum capacity can be increased to 23 guns.

Is the safe delivered ready to use?

The chest is delivered unpacked, on the ground floor, with 2 anchor screws. It is ready to be fixed immediately after unpacking.
