Upper complete receiver with heavy barrel for competition

Upper complete DANIEL DEFENSE for platform AR15 with breech unit and handle

- Heavy 18 " (45.72 cm) cold hammered barrel chambered in .5.56 NATO caliber rifled in 1: 7 pitch
- DANIEL DEFENSE Climb Mitigator muzzle brake, limiting recoil and disturbances caused by gas evacuation.
- Cylinder head MILSPEC profile M16
- Direct gas borrow operation with low profile gas borrow block
- 15 " (38.10 cm) MFR handguard with 21mm MILSTD 1913 Picatinny / Weaver rails and M-LOK mounting system, for significant weight savings and increased barrel cooling.
- Supplied with DANIEL DEFENSE GRIP-N-RIP handle in fiberglass polymer.
- Location for QUICK DETACH (QD) sling
- Available in black anodized finish

Technical characteristics :

- **UPPER RECEIVER** : Mil-Spec, manufactured from 7075-T6 aluminum by means of a, CNC machine, Type III Hard Coat Anodized

- **OPERATION** : Direct gas borrow, CNC machine made low profile gas block from 4140 hardened steel, phosphated
- **CYLINDER HEAD GROUP** : Profile M16, Mil-Spec

- **FRONT** : Daniel Defense MFR 15 '', CNC machine made from 6061-T6 Aluminum, Type III Hard-Coat Anodized

Made in the USA!

All DANIEL DEFENSE parts are subjected to meticulous tests and trials, in compliance with military standards (magnetic test to detect any defects)

The guns chambered in 5.56x45 mm, are designed to withstand in the long term, military-type ammunition developing a pressure and energy appreciably higher than that of the .223 Rem, which is the civilian equivalent.

The advantage of opting for an Upper with an 18 '' barrel is to gain in precision but also to take the 5.56 mm ammunition to greater distances.
