The big brother of the X149 with even greater efficiency

The Stalon XE149 silencer provides excellent sound reduction while maintaining the weapon's balance thanks to its semi-overbarrel mounting. Designed for calibers from .223 to .375, it is available in several threads (M14x1, M15x1, M18x1, 5/8x24 UNEF) to fit a wide range of rifles. Ideal for hunting or precision shooting. The XE149 protrudes 149 mm from the barrel.

Technical characteristics

- Design Type: Semi-Overbarrel Muffler

- Total length: 270 mm
- Barrel length: 149 mm
- Diameter: 49.5 mm
- Weight: approx. 430 g
- Materials: Anodized aluminum / stainless steel core
- Average attenuation: 29–34 dB depending on the caliber
- Available threads:
 - M14x1 (.223, .243, 6.5mm)
 - M15x1 (.30, .375)
 - M18x1 (.30, 8mm)
 - 5/8x24 UNEF (.30, .375)
- Compatible calibers:
 - .223 Rem / 5.56 NATO
 - .243 Win
 - 6.5mm Creedmoor
 - .308 Win / 30-06 / .300 Win Mag
 - 8x57 / 8mm
 - .375 H&H and equivalents
- Color: Matte black
- Made in: Sweden
- Recommended use: hunting, long-distance shooting, driven hunt, stalking

The **Stalon XE149** is a high-performance silencer specifically designed for active hunting and precision shooting. Its hybrid design (semi-overbarrel model) allows it to partially cover the barrel, limiting the total extension of the weapon while providing excellent sound attenuation.

Available in several **standard thread** configurations:

- **M14x1** for calibers .223, .243, 6.5mm
- **M15x1** for .30 and .375 calibers
- **M18x1** for .30 and 8mm calibers
- **5/8x24 UNEF** for .30 and .375 calibers

The XE149 is designed for **calibers ranging from .223 to .375**, making it an extremely versatile solution for hunters and sport shooters alike. It effectively reduces recoil, protects the shooter's hearing, and maintains concentration during shooting sessions.

Featuring an **aluminum body** with a stainless steel core for maximum strength, it guarantees a long service life even under heavy use. Its multi-chamber interior design optimizes gas dispersion for **optimal noise reduction**, without compromising accuracy.

With a total length of 270 mm (including 149 mm in front of the barrel), it offers an excellent ratio between attenuation, weight and handling.
