Shooting with open sights with your STALON silencer

The **STALON fiber optic front sight** is an ingenious accessory that allows you to keep your **sights open** even when your X-Series or XE-Series suppressor is installed. It attaches directly to the front of the suppressor and replaces the rifle's original front sight.

Compact and functional design

With its **49 mm** diameter and a depth of **14 mm** , this lightweight front sight, weighing only **6 grams,** fits perfectly without weighing down the weapon. Its **red optical fiber** ensures fast and precise target acquisition, even in low light conditions.

Simple and secure installation

Supplied with a **locking screw** , this front sight is easy to mount and remains perfectly stable in all circumstances. However, it requires **significant elevation compensation** , a point to take into account when adjusting the weapon.

Robustness and premium finish

Machined from **anodized aluminum** , it offers excellent resistance to wear and outdoor conditions. Its **matte black** finish with red optical fiber combines sobriety and efficiency.

An asset for hunting and dynamic shooting

Whether you're a stalking hunter, a stalker, or a sport shooter, this **STALON fiber optic front sight** ensures **maximum versatility** by allowing you to switch between silencer and open sight without compromise.

A clever accessory that perfectly complements your STALON silencers from the X and XE ranges.
