An innovative express rifle specially designed for left-handed hunters

- Rocker switch finish: nickel-plated + gold-plated
- Single expansion
- Pistol grip stock with cheekpiece, length 367 mm.
- Slope at BUSC: 40 mm - Slope at HEEL: 63mm
- Delivered in a cardboard box.

FABARM's technical objective was also to produce an express rifle using a forged steel receiver - the only design able to withstand all calibers for decades - but with a total weight similar to that of alloy weapons: objective perfectly achieved! The weapon thus does not suffer from any forward imbalance.

An extractor version of the ASPER 2 for those looking for an elegant and functional weapon.

The animal engraving with gilded subjects is highlighted by a steel finish favoring contrast.

The barrel with a length of 55 cm has an adjustable convergence at its muzzle and sights with fiber optics. The buttstock with its pigtail profile allows fast and precise aiming.

In order to optimize the extraordinary quality/price ratio of this express, FABARM offers a specific removable mounting that will allow the use of your ASPER 2 CLASSIC express with a red dot at a lower cost.
