Mount your red dot without modifying your weapon!

MAK has developed this original P-Lock system to speed up your aiming recovery after a shot. The red dot, instead of being mounted on the breech of your weapon, is thus ingeniously fixed on the frame of the latter, thus reducing the time between two shots, since you no longer wait for the return of the breech to realign target.

With only 58g on the scale (not including the red dot), this shooting accessory will not negatively affect your accuracy.

Dimensions: 33x51x65mm

If specifically designed for Glock, this system will fit the Sig Sauer P226 X5 and X6, the Walther Q5 and PDP, the Schmeisser Hugo 1911, the H&K SFP9, the CZ SP01 and Shadow 2, and the Canik with no problem!
