A massive muzzle brake for maximum attenuation!

The Audere Hammerhead Muzzle Brake is designed to provide exceptional recoil and barrel lift mitigation, improving the stability and accuracy of your shots. Made from high-grade steel with a black nitrided finish, it is compatible with a wide range of calibers and threads, adapting to the needs of the most demanding shooters.

Technical characteristics:

- **Material** : High quality steel
- **Finish** : Black Nitride
- **Compatible calibers** : .30/7.62, .338, .375, .408/.416, .50
- **Available threads** : 5/8"-24, M18x1, 3/4"-24, M22x1.5, 7/8"-14, M25x1.5, 1"-14
- **Weight** : Varies depending on caliber and thread (eg: 403g for .30/7.62 with 5/8"-24 thread)
- **Length** : Varies by model
- **Accessories included** : Lock nut for position adjustment

The Hammerhead™ targets military, law enforcement and shooting sports users. This series is made of high-grade black nitrided steel and is designed to handle the massive amount of gas generated by the most powerful calibers through two specific ports that have different exhaust angles. The ultra-large dual-chamber design provides strong recoil mitigation by diverting gases.

The mass of the muzzle brake also helps limit barrel lift and recoil. A lock nut is included to adjust the position of the muzzle brake, making it easy to install. Available in multiple calibers including .30/7.62, .338, .375, .408/.416, and .50, with various thread sizes such as 5/8"-24, M18x1, 3/4"-24, M22x1.5, 7/8"-14, M25x1.5, and 1"-14, the Hammerhead fits a wide range of firearms. Whether you are a professional or avid amateur, the Audere Hammerhead Muzzle Brake is an ideal choice to optimize the performance of your firearm.
