An ultra comfortable Fabarm semi-automatic hunting rifle mainly intended for waterfowl and migratory hunters!

Rifles mainly intended for waterfowl hunters. Strata-like camouflage. Perfect hold in the hand thanks to the Soft-touch treatment of all the composite elements.

The Soft-Touch stock ensures great shooting comfort: the handle and the fore-end offer a rubberized feel that promotes grip while being very pleasant to the touch.

The Tribore barrels associated with the INNER HP and EXIS HP chokes make it possible to fire steel ball cartridges even in full chokes, unlike traditional shotguns which are limited to 1/2 coke!

The over bored Tribore barrels increase the speed of the pattern and the INNER HP chokes, which are more progressive than traditional chokes, promote more regular and better distributed shot or steel shot patterns.
