All disciplines! The ELOS N2 ALLSPORT is the most versatile sporting speargun ever created!

The ELOS N2 ALLSPORT can be instantly converted from a trap shotgun with a medium rib to a sporting clays or skeet shotgun with a low rib. The interchangeable rib system, comprising two QRR (Quick Release Rib) ribs—one 50/50% and the other 65/35%—combined with an adjustable Micro-Metric 3D stock, allows for true customization to the shooter's preferences. The Monte Carlo stock, meanwhile, allows for shooting with a slightly higher head position, thus promoting...

Reading clay target trajectories. Weapon proofed to 1630 BAR.

- Tribore HP Cannons - Tested to 1630 Bars
- Interchangeable Ergal sighting rib - White dot front sight
- 76 cm barrel, satin bronze finish
- Choke: Exis HP (CYL-SHORT-MEDIUM-LONG-XTREME)
- Forged steel rocker with a satin black finish
- Walnut wood pistol grip stock with adjustable comb
- Stock: Length 377 mm - Slope at cheekpiece: 40 mm - Slope at heel: 44 mm
- Triwood stock finish
- Half beaver tail handguard
- compatible with steel balls

The two sighting ribs, made of AL 7075-T6 alloy, utilize the QRR concept developed by FABARM. The adjustable MICRO-METRIC 3D stock allows you to adapt the rifle to both the shooting discipline and your body type. It comes with one 50/50% rib (point of aim to point of impact at 50m) and one 65/35% rib (at 30m, 9cm above the point of aim).

Fabarm's COMPETITION range of shotguns combines technology and expertise to deliver the best results for sport shooters. These shotguns are steel shot proofed and can be fired through chokes larger than a half choke thanks to Inner HP technology: hyperbolic profile chokes with extended lengths where the usual straight cone has been replaced by two curves to eliminate a sharp angle in the choke. All of this is done in compliance with CIP standards.

- 12/76 gauge
- Weight: 3.50 kg
