NUM535P	NUM'AXES - PIE1051 Trap PACK (with batteries, with SD, with SIM card)	Vente libre	9.6	7.6	12.8	292	LR-6 - AA	351.00 € incl. tax

Complete pack for immediate use!

The PIE1051 camera trap is the device with image sending by MMS or E-mail in 4G via a SIM card from an operator or only by E-MAIL with the Num'Axes SIM card supplied with it, the most compact in the Num'Axes range.

This application easily allows:

- The complete settings of the device.
- Viewing photos transmitted by the camera.

Captured images are sent directly to a free mobile app available on iOS and Android.

- 2.4" color screen
- Invisible LEDs, range up to 20m
- Photo resolution up to 24 MP / 1 to 5 photos per trigger
- Wide angle lens: 100° field of vision
- 4G = faster transmission and energy saving
- 8 AA batteries (alkaline or rechargeable Ni-MH) Compatible with external power supply

Comes with 8 LR6 batteries + 1 Sim card + 32 GB memory card.

With the PIE1051 camera trap, you will be notified as soon as a photo or video is taken by sending an MMS or an email.

As soon as the SIM card is inserted, the device automatically detects the mobile operator and enters the corresponding sending parameters (works in 2G, 3G and 4G).

The PIE1051 camera trap can be configured and triggered remotely via a free mobile application available on Android and ios.

Wide detection angle (80°) and wide shooting angle (100°)!

Features of the PIE1051 camera trap

- Shooting angle: **100°**
- PIR sensor (motion detector):
 - Detection angle: **100°**
 - Detection distance: about 20m
 - Adjustable sensitivity: low / medium / high
- Infrared flash:
 - Invisible black LEDs
 - Range: approximately 20 m
 - Possibility of inhibiting part of the LEDs:
 - helps prevent overexposed night photos/videos
 - useful if you want to place the camera close to the subject to photograph/film
 - Infrared flash with automatic activation depending on brightness
- **Possibility of configuring and triggering the device remotely using a free mobile application (Android/iOS) - Application name: PIE1051**
- Send photos by MMS or email (works in **2G** , **3G** and **4G**)
- Recipients of photos and/or videos:
 - You can enter 1, 2, 3 or 4 mobile phone numbers (recipients will only receive MMS and therefore only photos, no videos)
 - You can enter 1, 2, 3 or 4 email addresses (recipients will receive MMS or emails depending on the chosen parameters and therefore photos and/or videos)
- When the SIM card (standard size) is inserted, **the device automatically detects the mobile operator and provides the corresponding MMS/email sending parameters** (only if the operator is part of the list of pre-programmed operators in the 'device).
- Capture modes:
 - Photo: 1 to 5 photos per trigger
 - Video with audio recording: programmable duration from 5 to 59 seconds
 - Photo + Video with audio: a photo then a video are taken each time the trigger is triggered
- Photo resolution: 5 MP / 8 MP / 12 MP / 24 MP
- Video resolution: VGA / HD 720P / Full HD 1080P
- Night mode:
 - Adjustable: maximum range / balanced / minimum blur
 - A longer or shorter exposure allows you to increase or decrease the range of the infrared flash
- **PIR detection mode** : the device takes photos or videos when the PIR sensor (motion detector) detects activity in the area it covers
- **Time Lapse Mode** : Photos or videos are taken automatically at regular time intervals during a user-defined time window
- Marking on photos and videos: time, date, temperature, moon phase, device serial number, battery charge level
- Memory: 32 GB memory card included. The device also works with the NUM'AXES brand micro SD card with 64 GB adapter. 64 GB memory cards from other brands may not work. You can obtain micro SD cards with adapter at any time on this site (8 GB, 16 GB, 32 GB or 64 GB).
- **Loop recording on memory card** :
 - User programmable: ON/OFF
 - When the memory card is full, the camera records new photos/videos by deleting the oldest photos/videos.

Reliable and efficient

- 2 years warranty
- Designed to withstand bad weather (IP66)
- Trigger speed: 0.4 seconds

Ergonomics of the PIE1051 camera trap

- Weight: 661 g (with batteries)
- Dimensions: 148 x 117 x 78 mm
- Power supply: 8 AA alkaline batteries or 8 AA Ni-MH rechargeable batteries.
- Optional external power supply: power supply, solar panel
- 2-inch (~5 cm) TFT color LCD screen
- USB 2.0 port for downloading files

This pack contains, in addition to the camera trap, 8 AA LR6 batteries for power, a SIM card for sending photos and videos by email/MMS and a 32 GB SD memory card for storing your photos.
