The elegance of wood combined with the reliability of a proven mechanism.

The **Impala Plus semi-automatic shotgun with a wooden stock** offers a rare blend of modern mechanics and tradition. Its patented inertia system is integrated into an elegant walnut stock, ensuring a secure grip and optimal comfort.

- **Barrel** : 71 or 76 cm chrome-plated inside and out - Proofed: steel shot
- **Operation** : Inertia system with patented 6-pin rotary locking
- **5 interchangeable chokes** included (Skeet, Cyl, 1/2, 3/4, Full)
- **Capacity** : 2+1 shots
- **Sights** : TruGlo fiber optic front sight & milled housing to accommodate a scope.
- **Stock** : walnut with pistol grip
- **Butt plate** : flexible recoil pad
- **Finish** : matte black

The Impala Plus wood is a semi-automatic shotgun that makes no compromises: a noble stock, a proven mechanism, and an intuitive grip for all types of hunting in 12/76.

An uncompromising kinetic mechanism

The heart of the rifle lies in a **patented inertia-driven system** : no gas, less fouling, and smoother operation. The 6-lug rotary locking system ensures reliable and consistent closure, regardless of weather conditions or rate of fire.

Wooden stock and careful ergonomics

The natural walnut stock is carefully selected for its strength and beauty. The sculpted pistol grip and soft butt plate offer excellent handling and comfortable recoil. This shotgun combines tradition with a modern feel.

71 cm steel-proof barrel

The 71cm chrome-lined barrel is steel shot proofed and features an optimized bore for tight shot patterns. Ideal for migratory bird hunting, stand shooting, or versatile stalking. The TruGlo fiber optic front sight and bead sight complete the package for quick target acquisition.

Accessories, maintenance and modularity

The Impala Plus wood-bore shotgun comes with 5 interchangeable chokes (full to skeet), a choke wrench, drop spacers, a sling, and its "Plug and Turn" quick-release system simplifies maintenance. The receiver is also ready to accept a scope rail or red dot sight.

FAQ

Is the rifle compatible with steel shot ammunition?

Yes, the 71cm barrel is steel shot proofed, and the chokes supplied are suitable.

How can I easily maintain this rifle?

Thanks to the Plug and Turn system and quick disassembly, maintenance is simple and does not require any special tools.

Can a red dot sight or optic be installed?

Yes, the case is pre-drilled and ready to receive a rail for optical or red dot mounting.
