Semi-automatic inertia-operated rifle for waterfowl hunting.

The **Impala Plus semi-automatic shotgun in Max 5 camo** is designed for waterfowl hunters seeking reliability and discretion. Its patented inertia system ensures smooth operation, while its Max 5 camo finish blends seamlessly into marsh environments.

- **Barrel** : 71 or 76 cm chrome-plated inside and out - Proofed: steel shot
- **Operation** : Inertia system with patented 6-pin rotary locking
- **5 interchangeable chokes** included (Skeet, Cyl, 1/2, 3/4, Full)
- **Capacity** : 2+1 shots
- **Sights** : TruGlo fiber optic front sight & milled housing to accommodate a scope.
- **Stock** : Black synthetic with pistol grip and Gecko Touch coating
- **Butt plate** : flexible recoil pad
- **Finish** : Camouflage Max 5

Ergonomics adapted to waterfowl

The **Max 5 synthetic camo stock** with pistol grip ensures a secure and comfortable grip. Its soft butt plate effectively absorbs recoil for fatigue-free shooting.

Patented inertia system

The mechanism uses recoil energy to reload the weapon, without using gas. This **inertia system** minimizes fouling, ensures greater reliability in humid environments, and facilitates maintenance. The 6-lug rotary lock guarantees a solid and secure closure with every shot.

Ballistic performance

Available in **71 cm** or **76 cm** barrels, both chrome-plated inside and out and tested for steel pellets, this shotgun offers excellent shooting performance. The 5 chokes supplied allow you to adapt the pattern to each type of waterfowl.

Aim and discretion

The TruGlo fiber optic front sight ensures rapid target acquisition, even in low light. The Max 5 camouflage pattern guarantees **effective camouflage** in reed beds and wetlands.

Ease of maintenance and safety

The quick-release mechanism simplifies maintenance, even in the field. The "Plug and Turn" system makes it easy to secure the weapon for storage. The internal steel rails limit wear and extend the life of the receiver.

- Pre-drilled housing for optical mounting
- Weight optimized for active hunting
- Large bore barrel to reduce friction and recoil
- Assembly/disassembly without specific tools
