OI4010	Infiray HL13 Holographic Thermal Camera	Vente libre	8	5.8	7.4	250	1x	4x	1590.00 € incl. tax 795.00 € incl. tax

Infiray HL13 is a multifunctional direct-view reflex thermal sight, equipped with the latest generation InfiRay thermal image detector. The 1.63" OLED screen provides an excellent visual experience of fast target acquisition with no visual difference. It can be the perfect option for users who want a thermal aiming camera with compact size, easy operation and multiple installation interfaces (side picatinny available).

High image quality with a 1.63 inch AMOLED screen

The high-performance IRay VOx detector and advanced image processing create brilliant, sharp images. And the Holo series is designed for direct aiming with a 1.63" AMOLED screen, which allows the user to observe and aim quickly and precisely by using both eyes, which is more comfortable and clearer without visual difference.

Short start-up time, low power consumption

The 3-second start-up time saves energy and can be activated quickly when needed. Low power consumption ensures you don't have to worry about power supply. The Dual Purpose Holo Thermal Scope is a clean and distinct thermal monocular that looks a lot like a regular handheld video camera.

The 3-second start-up time saves energy and can be activated quickly when needed. Low power consumption ensures you don't have to worry about power supply. The Dual Purpose Holo Thermal Scope is a clean and distinct thermal monocular that looks a lot like a regular handheld video camera.

Compact size and lightweight, fully waterproof IP67

With reasonable layout, compact structure, user-friendly controls, ergonomic design and light weight, Holo series is more comfortable and convenient for outdoor use.

IP67 waterproof protection ensures the Holo series works great in wet environment, heavy rain, snowfall and submersion in 1 meter of water for 30 minutes.

Multiple mountings, viewfinder or monocular, according to your choice.

For convenient use, the Holo series is equipped with a quick-release rail clamp for installation on hunting weapons equipped with Picatinny rails. So, in addition to being used as a thermal sight on firearms, the Holo series can also be paired with other devices such as a custom Holo grip for research.

In addition, there is a short Picatinny rail on the side for various use to install additional equipment.

Features :

- Resolution: 320 x 280px
- Pixel size: 17μm
- NETD: 17 mK
- Frame rate: 25Hz
- Lens: 13mm
- Field of view: 23.6° x 20.7°
- Screen: 4cm AMOLED
- E-zoom: 1x / 2x / 3x / 4x
- Laser: 650nm
- Reticle: multiple patterns and color options
- Power supply: CR123A
- Battery life: 3.5 hour
- Battery life: 8 hours
- Protection index: IP67
- Weight: ~250g
- Dimensions: 58.5 x 80.5 x 74.5mm
- Mount: Picatinny
- Range: 476m
