The Schmeisser AR15 with PDW-inspired telescopic stock.

- Fully ambidextrous design
- 10.5" (26.6 cm) free-floating barrel with 1:9" (228.6 mm) rifling pitch
- A2 flame reducing muzzle brake
- Safety 45°/90°
- 6-position stock and Schmeisser polymer pistol grip.

The adjustable gas borrowing system allows you to adjust the gas pressure in the system. This is especially important when using a sound reducer to avoid excessive operation and increased back pressure. The floating barrel design improves the precision of the weapon by eliminating the contact of the barrel with the frame of the weapon to retain only the vibration of the barrel. Fully Mil-Spec compatible, this AR-15 allows the addition of numerous accessories or parts for a fully personalized upgrade. With a modern aesthetic in its raw state, its handguard with M-Lok attachment offers the possibility of adding multiple accessories to give your weapon a tactical look.
