The DMR - Dedicated Marksman Rifle - series is the new AR15 benchmark for maximum accuracy and maneuverability. It's the first choice for demanding shooters, who expect perfection right out of the box.

All DMR models feature an 18" fluted barrel, adjustable gas block, aluminum M-LOK handguard with Helicoil inserts. The bottom and top are forged from 7075 T6 aluminum and feature a full ambidextrous design.

The SCHMEISSER ambi charging handle features gas ports for silencer use and offers extended fenders for easy handling. All rifles are equipped with a 45°/90° safety which can be easily switched between these two settings. In addition to the usual Schmeisser features, all our DMR rifles come with a bipod and 3 extra long Picatinny rails. Finally, our DMR is equipped with an adaptable Triggertech trigger, which makes it the best AR on the market.
