SBR Design - Short Barrel Rifle

The Daniel Defense LIBERTY pack contains:

- An AR15 DDM4V7-S chambered in 5.56x45mm caliber
- A Primary Arms 2 MOA red dot sight
- A montage for red dot

The manufacturer [DANIEL DEFENSE](https://www.danieldefense.com) designs the best in terms of AR15 and M4, with an attention to detail and finish, unmatched.

This manufacturing quality allowed this manufacturer from the USA to supply the American USSOCOM.

The DDM4 V7S AR15 is fitted with an MFR 10.0 M-LOK rail and is built around a 11.5-inch cold-forged, free-floating barrel. The V7S offers optimum maneuverability, reliability, accuracy and terminal ballistics with a wide variety of ammunition. Its carbine-length gas system provides smooth, reliable cycling in harsh conditions and reduces perceived recoil. With 7-position M-LOK mounting points and an uninterrupted 1913 Picatinny rail on top, the V7S has plenty of space for sights, optics and accessories the user may need. The combination of an 11.5 inch barrel and MFR rail also ensures compatibility with a wide variety of muzzle devices and sound suppressors. The independently ambidextrous GRIP-N-RIP charging handle accommodates both left- and right-handed shooters. This rifle also comes with the ergonomic Daniel Defense Buttstock and Pistol Grip stock.

- **LOWER RECEIVER:** Mil-Spec with improved flared magazine well and rear receiver QD mounting point. CNC machined from 7075-T6 aluminum, Type III hard coat anodized.
- **UPPER RECEIVER:** Mil-Spec with index marks and M4 feed ramps. CNC machined from 7075-T6 aluminum, Type III hard coat anodized.

BARREL: Chrome Moly Vanadium steel, cold hammer forged, 1:7 Twist, 11.5" Government Profile, chrome lined, Mil-Spec Heavy Phosphate Coated, and HP/MPI tested.

GAS LOAD: Low profile gas block CNC machined from hardened 4140 steel and Mil-Spec heavy phosphate coating, carbine length, direct impact.

LIGHTING DEVICE: Daniel Defense flash suppressor, 17-4 PH stainless steel, salt bath nitride finish

BOLT LOAD GROUP: M16 Profile, Mil-Spec MP Tested, Chrome Plated, Properly Pitched Gas Key.

BUFFER: H-buffer

SIGHTS: Sold separately

HANDGUARD: MFR 10.0, CNC machined from 6061-T6 aluminum, type III hard coat anodized

CHARGING HANDLE: GRIP-N-RIP charging handle, CNC machined 7075-T6 aluminum body, CNC machined 6061-T6 aluminum handles and latch, Heavy duty stainless steel bearing pins, Type III hard anodizing

RECEIVER EXTENSION: 6 position 7075-T6 aluminum to Mil-Spec standard

STOCK: Daniel Defense Buttstock, Glass Filled Polymer with Soft Touch Overmolding

PISTOL GRIP: Daniel Defense Pistol Grip, Glass Filled Polymer with Soft Touch Overmold
Made in the USA!

Primary Arms 2 MOA red dot sight:

- Red dot size: 2 MOA
- Setting: 1/2 MOA per click at 50 MoA
- Battery: CR203
- Available in Black or FDE (Tan) colors.
- For the assembly of this device, in order to avoid any screw breakage, it is recommended not to exceed a tightening torque of 2.5 NM

Mount compatible with any Primary Arms red dot.

Fits on Picatinny - compatible Micro H1 - Sig Sauer Romeo 4 and 5

- 1/3 down for co-witness sighting OPAZ3
