The Sporting RS Fabarm rifle adapted to your aim thanks to its adjustable cheek piece!

Reach the highest steps of the podium with the Elos N2 RS Sporting competition rifle, the latest addition to Fabarm's sports range.

The contour of the stock has thus been increased both at the cheekpiece and at the level of the pistol grip, its greater mass allowing for a balance more oriented towards the rear of the weapon.

- Caliber 12/76
- Tribore HP 1630 Bars superimposed barrels (tested high performance steel balls)
- Barrel lengths: 76cm
- Barrel Finish: Satin Bronze
- 4 Exis HP Chokes included (Short-Medium-Long-Xtreme)
- Length of chokes: 96mm
- Handlebar: round white + intermediate barley grain
- Mono selective trigger (MDS) Racing

- Rocker Finish: Satin Black
- Steel ejectors
- Pistol stock with adjustable cheekpiece
- Stock length: 377mm
- Slope at bust: 37mm - Slope at heel: 57mm
- Packaging: ABS suitcase

The RS is an evolution of the Elos N2 Sporting, a model which has enjoyed international success since its launch. In order to improve what was already almost perfect, the RS model has an increased stock both at the cheekpiece and the pistol grip. Its mass being greater, allows for a balance more oriented towards the rear of the weapon. In order to guarantee a perfect grip and a precise shot over the entire trajectory, the front takes on a more rounded profile. The walnut, here of better quality, is highlighted by a perfectly worked sanded-oiled finish. This RS version, aimed at more expert shooters, is therefore juxtaposed alongside the N2

sporting version already available in gunstores.

Fabarm rifles are tested at 1630 Bars (i.e. 340 Bars more than the Saint-Etienne steel ball test). It is therefore possible to fire [HP \(High Performance\) steel ball cartridges](#) with these rifles. In addition, the design of the Inner HP and EXIS HP chokes (FABARM registered trademarks) allows the firing of steel balls with chokes superior to the Half-Choke while respecting CIP standards (Fabarm exclusivity).
