The Elos A2 Al Notte superimposed hunting rifle from Fabarm benefits from a lightweight Ergal action frame.

With its lightened Ergal action frame, which saves 300 g compared to the steel version, this shotgun is particularly easy to handle and lively. Its pistol grip stock, tulip forend and fiber optic front sight make the Fabarm Elos A2 Al Notte over-and-under shotgun an ideal weapon for hunting waterfowl or in front of you. The barrels tested at 1630 bars and the action frame including a large steel insert allow the firing of high-performance lead substitute cartridges (steel, zinc, nickel balls, etc.), for shooting near wetlands.

The Elos A2 Al Notte over-and-under shotgun comes with 5 Inner HP chokes (Cyl-Short-Medium-Long-Xtreme). Fabarm is the only manufacturer in the world to allow the firing of steel balls in chokes greater than half choke with its Inner HP technology.

- Barrel finish: Satin anodized black
- Slope at the busk: 38 mm
- Heel slope: 58 mm
- Tulip front
- Length and wooden stock with non-slip texture on the pistol grip and handguard
- The wooden parts are worked with a sanded and oiled finish.
