### Telescopic stock and flip-up type folding sights, this rifle clearly displays its tactical character!

With its adjustable stock, its lightweight Ergal 55 frame, its flip-up sights and its barrel jacket, the Fabarm SDASS Pro Telescopic Stage 2 shotgun has a tactical look and offers an effective and versatile solution, both for sport shooting and for maintaining order.

Forget the slopes of the butts of grandpa's shotguns, the weapon here is straight, linear, allowing a stable recoil and a great speed of target acquisition. Its telescopic butt has an adjustable comb, the barrel is jacketed over its entire length and the CERAKOTE Carbon Grey coating perfectly highlights the design of the weapon, helped in this by modern and dynamic logos. The SDASS PRO TELESCOPIC STAGE 2 is formidable in efficiency both in a "sport shooting" type use and for a "defense" orientation in multiple aspects.

- 51 cm (20") barrel with TRIBORE HP bore and muzzle brake.
- Total capacity 7+1 shots.
- MIL-STD 1913 cantilever rail, allowing the barrel to be disassembled/reassembled without the need to zero the optics.
- Choke: INNER HP ACCURACY.
- Lightweight 7075 T6 Aluminum body.
- Finish: CERAKOTE Carbon Grey.
- Telescopic stock (length from 265 to 340 mm) with height-adjustable comb (3 positions).
- Composite stock and handguard.
- Pump-action recoil spring in the handguard.
- Pistol grip with non-slip grip.
- Diopter and handlebar both adjustable and folding, in nylon.
- Carabiner anchor allowing the strap to pass from 9 to 12 o'clock.

Chambered in caliber 12/76, it has an internal choke of the INNER HP ACCURACY type and a muzzle brake that generate an impressive ballistic quality. The barrel, drilled in the mass has a TRIBORE HP profile to allow here first of all a reduction of the recoil and the obtaining of perfect and regular sprays, with all the cartridges, including the bullets. The weapon tested steel shot benefits from the exclusive test at 1630 BAR that the CIP test bench of Gardone Val Trompia carries out for the company FABARM SpA
