SKU	Designation	RGA	French Law	Caliber	Chamber (mm)	Shots	Chokes	Barrel (cm)	Length (cm)	MSRP
FAR850	12/76 20"	CG150	B	cal. 12	76 mm	8	I.C.	51	93.5	1 399.00 € incl. tax

The very linear, very straight design of the weapon allows for extremely rapid target acquisition, and the recoil sensation is significantly more pleasant for the shooter.

The telescopic stock features a three-position adjustable cheek piece. The receiver and barrel shroud are finished with a CERAKOTE Karbon Grey coating, a two-tone logo, and a satin finish on all components. The TRIBORE barrel, drilled from a solid block of steel and fitted with a removable Accuracy choke, is 82 mm long and delivers unparalleled grouping and accuracy.

- **caliber:** 12/76
- **Capacity:** 7+1 shots
- **barrel length:** 51 cm
- **Total length:** 93.5 cm
- **weight:** 3440 g
- **Stock:** Telescopic with adjustable cheek piece

Modular pump-action shotgun with adjustable telescopic stock.

The Italian brand **Fabarm** is renowned for its ability to develop modern, reliable pump-action shotguns perfectly suited to the needs of sport shooters. The **SDASS Pro** range combines ergonomics, innovation, and recognized manufacturing quality.

The **Fabarm SDASS Pro Telescopic Stage 2** is a category B pump-action shotgun designed for sport shooting. Robust and customizable, it features an adjustable stock and a jacketed barrel with a muzzle brake.

Evolving ergonomics

The **telescopic stock,** adjustable in length (265 to 340 mm), adapts to the shooter's physique. Its **cheek rest, adjustable** to three positions, optimizes sight alignment, even with optics mounted on the Picatinny rail.

Canon Tribore HP

The **Tribore HP barrel** is a Fabarm exclusive: it combines several bore sections within a single tube. This design reduces recoil and improves shot pattern consistency, even with slugs.

Choke Inner HP Accuracy

The **Inner HP Accuracy choke** optimizes shot density and consistency. It is designed to deliver enhanced accuracy, particularly on targets at medium range.

Cerakote Carbon Grey finish

Cerakote finish is a ceramic coating applied to metal. Resistant to scratches, corrosion and impacts, it ensures increased durability while providing a modern, matte appearance.

Flip-up sights

Flip-up type folding sights (adjustable diopter and front sight) allow for quick and flexible acquisition, whether in mechanical sighting or as a complement to optics.

Accessories and modularity

The **MIL-STD 1913 cantilever Picatinny rail** allows for the mounting of optics and enables barrel removal without loss of zeroing. Sling attachment points further enhance the weapon's practical ergonomics.

- **Barrel bore:** Tribore HP
- **Choke:** Inner HP Accuracy
- **muzzle brake:** included
- **Sights:** Adjustable flip-up
- **Carcass:** Ergal 55
- **Finish:** Cerakote Carbon Grey
- **Test pressure:** 1630 bar (steel balls)
- **Packaging:** cardboard box
