Victrix Armaments launches a range of short-barreled rifles (Small Bore).

Intended for sport and military shooting. The Victrix Small Bore line in .22 LR ensures low noise, no recoil, zero reload time, low operating costs, maximum accuracy and extreme fun, in true Victrix Armaments style.

AT THE HIGHEST LEVEL

Victrix Pugio Small Bore follows the same construction standards, materials and coatings of its "big brother" in order to guarantee the high levels of quality that distinguish all Victrix rifles.

THE BEST TRAINER

With Victrix Pugio Small Bore you can simulate the difficulties of larger calibers at shorter distances and lower ammo cost. It is also ideal for a professional shooter who needs constant training on the shooting line.

FINALLY PROOF THAT SIZE DOES NOT ALWAYS MATTER

The most widespread beliefs do not always correspond to reality.
Here's why it's important to broaden your horizons: it's time to take precision shooting to a new level.

- Barrel length: 16''
- Weight: 5.51 kg
- Total length: 652 mm (stock folded) / 898 mm (stock unfolded)
- Rifled barrel in special hammer-forged steel by Lothar Walther
