Three scratch pitches 1;7'' - 1:10'' - 1:16"" to adapt to the warhead weight that suits you!

The Victrix Scepter Small Bore bolt-action single-shot repeating rifle is chambered in .22LR. A Picatinny rail above the ejection port allows for the addition of an optic. Adding challenge to long-range shooting with a small caliber that allows for intense training at a lower cost.

The 1:10'' rifling pitch is more suitable for 22LR cartridges with a heavier bullet (60 grains) than the standard 40 grain bullet.

THE COST OF AMMUNITION WILL NO LONGER BE A NIGHTMARE

Do you want to train by simulating the difficulties of large calibers without suffering the disadvantages?
The Victrix Scepter Small Bore is made for you! It ensures you a perfect workout, at shorter distances
and with a low ammunition cost.

EVEN MORE PRECISE SETTINGS

The new stock design also installed on our Victrix Scepter Small Bore features innovative geometric and ergonomic solutions.

- Rifled barrel in special hammer-forged steel by Lothar Walther
- Muzzle thread M18x1mm
- Stock with horizontal and vertical adjustment, and insulated cheekpiece
- Rear slide inclined at 3 degrees, vertically adjustable by ring
- Reversible EVO button folding system
- Ergonomic, interchangeable zero-angle grip for standard AR platform
- One-piece, high-strength light alloy chassis

- Light profile fork with reinforcement points to achieve overall rigidity, with integrated Anschutz-style rail for mounting a bipod
- Light alloy 20 MoA action rail
- Mouth wire protector (if provided)
- Single-shot mechanism in solid-machined AISI 630
- Bolt with two asymmetrical rear tenons arranged at an angle of 60 degrees, with a quick release system and a double extractor
- PVD finish on the action and slide
- Victrix Sporting V Single-stage adjustable trigger: standard setting approximately 40 gr (1.41 oz)
- Explorer Case for transport
- User manual and welcome kit
- **Scope and bipod not included**

FINALLY PROOF THAT SIZE DOES NOT ALWAYS MATTER

The most widespread beliefs do not always correspond to reality.
Here's why it's important to broaden your horizons: it's time to take precision shooting to a new level.
The Victrix Small Bore line in .22 LR. ensures low noise, no recoil, zero reload time, low operating costs, maximum precision and extreme pleasure, in true Victrix Armaments style.
