Using cutting-edge LED technology, the SLx 1x MicroPrism offers 13 lighting settings with **AUTOLIVE®** and three night vision settings. At maximum illumination, the MicroPrism delivers true **DAYLIGHT BRIGHT**, while the innovative low-power sleep mode preserves battery life for reliable "always on" storage. Although small in size, virtually no sacrifices have been made for eye relief and even provides a generous field of view.

This MicroPrism from Primary Arms is part of the SLx line of optics. SLx optics have built their reputation on innovation, reliability and value.

FEATURES :

- Magnification: 1X
- Length (without lens covers): 2.48"
- Weight (with battery, without lens covers): 7.0 oz.
- Lens diameter: 17mm
- Battery life at medium setting: 29,000 hours
- Exit pupil: 15.6 mm
- Eye relief: 3.6? *
- Field of view at 100 yards: 76.5 feet**
- Total windage/elevation adjustment: 120 MOA
- Click on Value: 1 MOA

* Usable range: 2" to 6" eye relief

** Optimal field of view at 3.6 inches of eye relief

- Partial illumination of the red reticle
- Now 13 parameters; 3 night vision settings (NV1, NV2, NV3); the highest settings are **DAYLIGHT BRIGHT**.
- **AUTOLIVE® motion detection feature** increases battery life.
- Engraved reticle, perfect response to astigmatism and works without illumination.
- 8 mounting height options from 1.1" to 2.075", including Absolute Co-Witness and Lower 1/3rd options.
- Wide field of view, excellent for CQB use.
- IP67 Waterproof
- Fully nitrogen purged
- Dust proof
- Fog resistant
- Main body made of aluminum alloy with hard anodizing
- Housing for anti-glare devices (ARD) (sold separately).
- Lifetime warranty
