Short Barrel Rifle version, ideal for CQB.

- Ultra-compact platform with 7-inch barrel, no 1:7 rifling
- PDW stands for Personal Defense System - in the US it is used as a personal defense system.
- The Maxim Defense CQB Gen 7 stock with an improved buffer system to work with or without a silencer.
- The linear compensator directs the muzzle blast forward.
- The muzzle thread (5/8-24) allows for the use of various muzzle brakes or moderators.
- Comes with two buffer springs: one standard gray spring, one red spring for subsonic ammo without silencer.

Compact and easy to carry, the Daniel Defense DDM4 PDW Short Barrel Carbine is the kind of AR15-style firearm you can rely on for personal and home defense... and it's a lot of fun to shoot, too. The 7-inch cold-forged 300 Blackout barrel keeps loads subsonic and provides excellent ballistics for a shorter barrel.

This highly maneuverable SBR PDW is equipped with the Maxim Defense CQB Gen 7 stock and comes with a 6-inch MFR XL flat front rail for quick handling, accuracy, and reliability while providing compatibility with a wide variety of accessories. This firearm is equipped with M-LOK hardpoints and an SLR M-LOK MOD2 Plain Front Handstop to ensure a safe shooting experience.

- **Lower:** Mil-Spec with improved flared magazine well and rear receiver QD attachment point. CNC machined from 7075-T6 aluminum.

- **Upper:** Mil-Spec with index marks and M4 feed ramps. CNC machined from 7075-T6 aluminum.
- **Barrel:** Chrome-moly-vanadium steel, cold hammer forged, 1:7 twist, 7-inch S2W profile, chrome plated, military-grade heavy phosphate coating, and HP/MPI tested.
