Fully equipped pack for driven hunting of big game.

This pack includes the following items:

- Monza .308 Bolt Action Rifle
- Microdot 1-4 x 24 illuminated driven rifle scope
- 21mm Picatinny Weaver rail clamps
- 5/8x24 thread

Comes with a Monza rifle case.

Features of the items in the pack:

Monza .308 rifle (ISM3801):

A pleasant and well-designed rifle with many integrated options!

- Black polymer stock with adjustable cheek rest
- Housing for cleaning kit in the pistol grip.
- 51 cm (20") cold-forged and chrome-plated steel free-floating barrel rifled with a 1:10" twist
- Capacity: 4+1
- Safety accessible with the right thumb.
- Adjustable trigger
- 15-slot Picatinny rail for optical mounting with integrated fiber optic sight.
- Lower picatinny rail with 6 slots for attaching a bipod or a light.
- Comes with a cover, 1 x 16mm stock extension, 3 Torx keys and 2 x 4-shot magazines.

MONZA .308 bolt-action repeating rifle

The Monza has everything you expect from a modern shotgun. Its simple, lightweight, and reliable design inspires confidence in all kinds of situations. The easy-to-use bolt moves smoothly within the receiver, ensuring optimal shot tracking. It can be disassembled in the field without any tools and is ready for use in a variety of scenarios. It offers both easy shot tracking in close quarters and pinpoint accuracy at long range. Its smooth-running mechanism and excellent balance allow for rapid follow-up shots.

With many years of experience in rifle manufacturing, Istanbul Silah integrates all its design, R&D, and 100% of its production under one roof. Produced with a next-generation quality culture that combines skilled craftsmanship with cutting-edge technology.

Original Monza barrel with button rifling, made of high-performance steel. Features four grooves, four sets of 1/10 RH (20", 22") and 1/12 RH (24") twist rates, and finished with an 11° crown. Anodized finish for maximum protection against scratches and corrosion. Muzzle threading available for all models.

Locking mechanism: The Monza's locking mechanism can be disassembled without any tools. By simply turning the firing pin cap, you can remove and clean the firing pin, firing spring, and follower in the field when necessary.

Scope mount and rail: The Mil STD 1913 21mm Picatinny rail is removable, and the receiver is compatible with Schwenk mounts. The Monza comes ready to install various types of mounting bases when the Picatinny rail is removed. The universal 2-inch (21mm) bipod rail is compatible with most accessories.

Magazine: Easily detachable 4+1 steel magazine. Thanks to the double row, loading is faster and more convenient to use.

Optional adjustable cheek rest: The perfectly ergonomic, fiberglass-reinforced synthetic stock combines lightness and durability. The adjustable cheek rest allows for perfect harmony between the rifle and the shooter, regardless of the aiming method chosen: red dot, scope, or open sights.

Sighting devices: Orange fiber optic front sight mounted on a 10mm dovetail and rear sight with 2 yellow fiber optic sights adjustable for windage, integrated into the upper picatinny rail.

Microdot 1-4 x 24 illuminated hunting scope (OC1424):

- 1 to 4x magnification
- Lens diameter: 24mm
- Body diameter: 30mm
- Correction: 1/2 MoA (1.45 cm at 100m)
- Illuminated etched reticle (reticle 4) with 11 illumination levels
- Tool-free adjustable hunting turrets with protective cap
- Protective caps
- Wide field of view: 40 m to 100 meters at 1x magnification
- Length 26.5cm
- Weight 465g
- Multilayer lens treatment
- Waterproofing tested in 1 meter of water at 50°C for 2 minutes

A versatile hunting scope with a wide magnification range. It will allow you to target big game (wild boar, red deer, roe deer) at short and medium ranges.

Its illuminated reticle 4 with adjustable intensity will be able to adapt to any type of ambient light, for hunting actions at sunrise, in full sun, in undergrowth or in a large bright clearing.

Its robust and reliable design will make it a flawless optic, capable of withstanding the worst weather conditions and resisting the strongest hunting caliber.

Its 1x magnification makes aiming easy. With its wide field of view and ultra-sharp image resolution, acquiring moving targets will be comfortable and natural, also allowing for shooting with both eyes open.

Economical 21mm Picatinny/Weaver rail cable ties (MK5102):

Pair of collars with a simplified structure in 2 parts and 4 screws to be both strong and economical.

Kastelberg has developed a more economical scope ring concept by combining the functions of tightening the scope and attaching the ring to the rail into a single mechanism! Each ring consists of two vertical half-rings, and tightening the 4 screws allows both the scope to be tightened in the ring and the rail in the ring's claws.
