MONZA .308 bolt-action manual repeating rifle

The Monza has everything to deliver what you expect from a modern rifle. A simple, lightweight and reliable design gives the highest level of confidence in all kinds of circumstances. The easy-to-use slide moves in the receiver in a perfect way to ensure the best tracking of shots. It can be disassembled in the field without any tools and ready to operate in various scenarios. It offers both easy tracking of shots in closed areas and perfect accuracy at long range. It allows rapid multiple shots thanks to its perfect operating mechanism and excellent balance.

Having many years of experience with rifles, Istanbul Silah includes all its design efforts, R&D and 100% production under one roof. Produced with a new generation quality culture that combines skillful hands with the highest technology.

Original Monza barrel with button rifling, made of high performance steel. With 4 grooves, 4 sets at 1/10 RH(20", 22") and 1/12(24") RH twist rate and finished with an 11° crown. Anodized finish for maximum protection against scratches and corrosion Mouth thread available for all models.

Locking: The Monza lock mechanism can be disassembled without any tools. By simply twisting the firing pin cap, you can remove and clean the firing pin, percussion spring, and follower in the field when needed.

Scope mount and rail: The Mil STD 1913 21mm picatinny rail is removable, the receiver is suitable for schewenk. The Monza comes ready to install various types of mounting bases when the picatinny rail is removed. The universal 2 inch, 21mm bipod rail is compatible with most accessories.

Magazine: Easily detachable 4+1 steel magazine. Thanks to the double row, faster loading and comfortable use.

Stock with optional adjustable cheekpiece: The perfectly ergonomic synthetic stock reinforced with fiberglass combines lightness and durability. The adjustable cheekpiece allows perfect harmony between the rifle and the shooter, whatever the aiming mode chosen: red dot, scope or open aim.

Sights: Orange fiber optic front sight mounted on 10mm dovetail and rear sight with 2 yellow fiber optics adjustable in drift, integrated into the upper picatinny rail.

Microdot 1-4 x 24 Illuminated Hunting Scope (OC1424):

- 1 to 4 times magnification
- Lens diameter: 24mm
- Body diameter: 30mm
- Correction: 1/2 MoA (1.45 cm at 100m)
- Engraved illuminated reticle (4 reticle) with 11 levels of illumination
- Tool-free adjustable hunting turrets with protective cap
- Protective caps
- Wide field of view: 40 m to 100 meters at 1x magnification
- Length 26.5cm
- Weight 465g
- Multi-layer lens processing
- Waterproofness tested in 1 meter of water at 50°C for 2 minutes

A versatile hunting scope with its wide magnification range. It will allow you to apprehend big game (wild boar, deer, roe deer) at short and medium distance.

Its 4 luminous reticle with adjustable intensity will be able to adapt to any type of ambient light, for hunting actions at daybreak, in full sun, in the woods or in large bright clearings.

Its robust and reliable design will make a flawless optic, capable of withstanding the worst climatic conditions and resisting the strongest hunting caliber.

Its 1x magnification makes it easier to aim. With its wide field of view and ultra-sharp image resolution, moving target acquisition will be comfortable and natural, also allowing shooting with both eyes open.

Economic collars on 21 mm Picatinny Weaver type rail (MK5102):

Pair of collars with a simplified structure in 2 parts and 4 screws to be both solid and economical.

Kastelberg has developed a more economical collar concept by combining the functions of tightening the scope and fixing the collar to the rail in a single mechanism! Each collar is made up of two vertical half-collars and tightening the 4 screws allows both the bezel to be tightened in the collar and the rail in the clamp claws.

QUAKE The Claw Ergonomic Suspender - Rounded Model (DKTBE04):

The Quake contour strap allows it to be attached to a Bergara rifle using its two metal rings.

The CLAW® Harness System is widely recognized for having the best non-slip pad incorporated into a harness.

The unique gripping action of the non-slip pad keeps the firearm in place on your shoulder, eliminating the tugging, rolling and pulling caused by other slings on the market.

Extremely durable, odor resistant and non-slip cushion, with a strap that stretches approximately 1.5 cm, increasing your comfort. The cushion remains extremely flexible in extreme heat and cold conditions.

It is UV stabilized to prevent fading or cracking. It comes with a quick-adjust strap and includes Hush Stalker QD harness swivels.

The strap is extendable by approximately 1.25 cm for added comfort. The cushion remains soft, even in extremely hot or cold weather conditions. It is UV stabilized to prevent fading and cracking. It comes with a quick-adjust strap and includes metal QD Hush Stalker swivel rings. It is UV stabilized to prevent fading or cracking. It comes with a quick-adjust strap and includes Hush Stalker QD harness swivels.
