Monza .30-06 rifle (ISM3801):

a nice and well thought out rifle with many built-in options!

- Black-finished polymer stock with adjustable cheek rest
- Housing for cleaning kit in the pistol grip.
- 51 cm (20") cold-forged and chrome-plated steel free-floating barrel with 1:10" pitch rifled bore
- Capacity: 4+1
- Safety accessible to the right thumb.
- Adjustable trigger tail
- 15-slot Picatinny rail for mounting optics with integrated fiber optic sight.
- Lower 6-slot Picatinny rail for attaching a bipod or lamp.
- Comes with a cover, 3 Torx keys and 2 x 4-shot magazines.

MONZA .308 bolt-action repeating rifle

The Monza has everything you expect from a modern rifle. A simple, lightweight, and reliable design provides the highest level of confidence in all kinds of circumstances. The easy-to-use slide slide slides seamlessly into the receiver to ensure the best shot tracking. It can be field-disassembled without any tools and is ready to operate in a variety of scenarios. It offers both easy shot tracking in confined areas and perfect accuracy at long range. It allows for rapid multiple shots thanks to its perfect operating mechanism and excellent balance.

With many years of experience in rifles, Istanbul Silah includes all its design, R&D, and 100% of its production under one roof. Produced with a new-generation quality culture that combines skilled hands with the highest technology.

Original Monza button-rifled barrel, made of high-performance steel. Featuring 4 grooves, 4 sets of 1/10 RH (20", 22") and 1/12 RH (24") twist rates, and finished with an 11° crown. Anodized finish for maximum protection against scratches and corrosion. Muzzle threads available for all models.

Locking: The Monza's locking mechanism can be disassembled without any tools. By simply rotating the firing pin cap, you can remove and clean the firing pin, percussion spring, and follower in the field when necessary.

Scope Mount & Rail: The Mil STD 1913 21mm picatinny rail is removable, the receiver is suitable for schewenk. The Monza comes ready to install different types of mounting bases when the picatinny rail is removed. The 2-inch, 21mm universal bipod rail is compatible with most accessories.

Magazine: Easily detachable 4+1 steel magazine. Thanks to the double row, loading is faster and the use is more comfortable.

Stock with optional adjustable comb: The perfectly ergonomic synthetic stock reinforced with fiberglass combines lightness and durability. The adjustable comb allows for perfect harmony between the rifle and the shooter, regardless of the chosen aiming mode: red dot, scope or open sight.

Sights: Orange fiber optic front sight mounted on 10mm dovetail and 2 yellow fiber optic rear sight adjustable in windage, integrated into the upper picatinny rail.

Microdot 1-4 x 24 Illuminated Drive Scope (OC1424):

- Magnification from 1 to 4 times
- Lens diameter: 24mm
- Body diameter: 30mm
- Correction: 1/2 MoA (1.45 cm at 100m)
- Etched illuminated reticle (4-point reticle) with 11 illumination levels
- Tool-free adjustable hunting turrets with protective cap
- Protective caps
- Wide field of vision: 40 m at 100 meters at x1 magnification
- Length 26.5cm
- Weight 465g
- Multi-coated lens treatment
- Waterproofing tested in 1 meter of water at 50°C for 2 minutes

A versatile hunting scope with a wide magnification range. It will allow you to capture big game (wild boar, deer, roe deer) at short and medium distances.

Its 4-light reticle with adjustable intensity will be able to adapt to any type of ambient light, for hunting actions at dawn, in full sunlight, in undergrowth or in large bright clearings.

Its robust and reliable design will make it a flawless optic, capable of withstanding the worst weather conditions and resisting the highest caliber of hunting.

Its 1x magnification makes aiming easier. With its wide field of view and ultra-sharp image resolution, acquiring moving targets will be comfortable and natural, even allowing you to shoot with both eyes open.

Economical 21mm Picatinny Weaver rail mounts (MK5102):

Pair of collars with a simplified structure in 2 parts and 4 screws to be both strong and economical.

Kastelberg has developed a more economical clamp concept by combining the functions of clamping the scope and fixing the clamp to the rail in a single mechanism! Each clamp consists of two vertical half-clamps and tightening the 4 screws allows both the scope to be clamped in the clamp and the rail in the clamp claws.
