Fully equipped pack for driven hunting of big game.

This pack includes the following items:

- Monza .30-06 bolt-action rifle
- Microdot 3-12 x 56 scope for hunting blinds
- 21mm Picatinny Weaver rail clamps

Supplied with a Monza rifle case.

Features of the pack elements:

Monza .30-06 rifle (ISM3801):

a nice and well thought out rifle with many built-in options!

- Black-finished polymer stock with adjustable cheek rest
- Housing for cleaning kit in the pistol grip.
- 51 cm (20") cold-forged and chrome-plated steel free-floating barrel with 1:10" pitch rifled bore
- Capacity: 4+1
- Safety accessible to the right thumb.
- Adjustable trigger tail
- 15-slot Picatinny rail for mounting optics with integrated fiber optic sight.
- Lower 6-slot Picatinny rail for attaching a bipod or lamp.
- Comes with a cover, 1n, 3 Torx keys and 2 x 4-shot magazines.

MONZA .30-06 bolt-action repeating rifle

The Monza has everything you expect from a modern rifle. A simple, lightweight, and reliable design provides the highest level of confidence in all kinds of circumstances. The easy-to-use slide slide slides seamlessly into the receiver to ensure the best shot tracking. It can be field-disassembled without any tools and is ready to operate in a variety of scenarios. It offers both easy shot tracking in confined areas and perfect accuracy at long range. It allows for rapid multiple shots thanks to its perfect operating mechanism and excellent balance.

With many years of experience in rifles, Istanbul Silah includes all its design, R&D, and 100% of its production under one roof. Produced with a new-generation quality culture that combines skilled hands with the highest technology.

Original Monza button-rifled barrel, made of high-performance steel. Featuring 4 grooves, 4 sets of 1/10 RH (20", 22") and 1/12 RH (24") twist rates, and finished with an 11° crown. Anodized finish for maximum protection against scratches and corrosion. Muzzle threads available for all models.

Locking: The Monza's locking mechanism can be disassembled without any tools. By simply rotating the firing pin cap, you can remove and clean the firing pin, percussion spring, and follower in the field when necessary.

Scope Mount & Rail: The Mil STD 1913 21mm picatinny rail is removable, the receiver is suitable for schewenk. The Monza comes ready to install different types of mounting bases when the picatinny rail is removed. The 2-inch, 21mm universal bipod rail is compatible with most accessories.

Magazine: Easily detachable 4+1 steel magazine. Thanks to the double row, loading is faster and the use is more comfortable.

Stock with optional adjustable comb: The perfectly ergonomic synthetic stock reinforced with fiberglass combines lightness and durability. The adjustable comb allows for perfect harmony between the rifle and the shooter, regardless of the chosen aiming mode: red dot, scope or open sight.

Sights: Orange fiber optic front sight mounted on 10mm dovetail and 2 yellow fiber optic rear sight adjustable in windage, integrated into the upper picatinny rail.

Microdot 3-12 x 56 illuminated driven rifle scope (OC1424):

Scope designed for long-distance hunting. The variable 3x to 12x magnification allows for adaptation to all shooting distances, and the large 56mm aperture provides excellent brightness even at dawn or dusk. Very high optical quality and multi-coated lenses.

- Magnification from 3 to 12 times
- Lens diameter: 56 mm
- Body diameter: 30mm
- Correction: 7 mm at 100 m / click or 1/4 MoA per click
- Etched illuminated reticle (ret. 4) with 11 illumination levels
- Length: 33.8 cm - Weight: 720 grams
- Comes with front and rear folding windshields.

- Eyepiece lens diameter: 35 mm
- diopter adjustment: -2.0 / +2.0
- Eye distance: 4.13" - 3.93" or 105mm - 100mm
- Parallax set at: 100 yards

Economical 21mm Picatinny Weaver rail mounts (MK5102):

Pair of collars with a simplified structure in 2 parts and 4 screws to be both strong and economical.

Kastelberg has developed a more economical clamp concept by combining the functions of clamping the scope and fixing the clamp to the rail in a single mechanism! Each clamp consists of two vertical half-clamps and tightening the 4 screws allows both the scope to be clamped in the

clamp and the rail in the clamp claws.

QUAKE The Claw Ergonomic Suspender - Rounded Model (DKTBE04):

The Quake contour strap allows it to be attached to a Bergara rifle thanks to its two metal rings.

The CLAW® harness system is widely recognized for having the best non-slip cushion incorporated into a harness.
The unique gripping action of the non-slip pad keeps the firearm in place on your shoulder, eliminating the tugging, rolling, and pulling caused by other slings on the market.
Extremely durable, odor-resistant, and non-slip cushion with a strap that stretches approximately 1.5 cm, increasing your comfort. The cushion remains extremely flexible in extreme heat and cold conditions.

It is UV stabilized to prevent fading or cracking. It comes with a quick-adjust strap and includes Hush Stalker QD harness swivels.
The strap stretches approximately 1.25 cm for comfort. The pad remains flexible, even in extremely hot or cold weather conditions. It is UV stabilized to prevent fading and cracking. It comes with a quick-adjust strap and includes Hush Stalker QD metal swivel rings.It is UV stabilized to prevent fading or cracking. It comes with a quick-adjust strap and includes Hush Stalker QD sling swivels.
The strap stretches approximately 1.25 cm for added comfort. The pad remains flexible, even in extremely hot or cold weather conditions. It is UV stabilized to prevent fading and cracking. It comes with a quick-adjust strap and includes Hush Stalker QD swivel metal rings.
