Daniel Defense H9: The encounter between the 1911 and the stryker

Discover the revolution brought by Daniel Defense to the world of handguns with the all-new DANIEL™ H9®. Designed to raise standards, this weapon embodies the perfect fusion of the ergonomics of a 1911 and the simplicity of aiming, as well as the ease of shooting and maintenance of a percussion pistol.

Reduced recoil and muzzle-flip: Thanks to its low bore axis, the DANIEL™ H9® delivers faster and more accurate follow-up shots, ensuring an exceptional shooting experience. The Low Bore Ax results in linear recoil and not with lifting. Which leads to increased precision.

Modular Design: The modular design allows for easy customization, allowing each user to configure the weapon to their individual preferences.

Type 1911 Trigger with Safety Blade: The Type 1911 straight trigger with safety blade provides precise control and safer use, highlighting Daniel Defense's commitment to safety and performance.

Customizable Ambidextrous Controls: Customizable ambidextrous controls provide exceptional ergonomics, allowing easy handling of the weapon in all situations.

Aircraft-grade aluminum frame: The aircraft-grade aluminum frame ensures exceptional lightness without compromising durability, providing rock-solid reliability.

LOW DRILLING AXLE
The barrel axis is low, which reduces recoil and barrel rollover and allows for faster, more accurate follow-up shots.

STRAIGHT-PULL TRIGGER
Straight 1911-style trigger for precise control.

AMBIDEXTROUS CONTROLS
Ambidextrous controls and reversible magazine release button for better ergonomics.

READY FOR OPTICS
Fully compatible with popular red dot optics for optimal shooting potential.

Features :

- FRAME: Type 7075 aluminum for lightness and durability
- BARREL: Cold hammer forged stainless steel, no scratches 1:10
- SLIDE: CNC machined slide
- SIGHTS: Carbon steel with dovetail cut
- TRIGGER: stainless steel, straight recoil, with trigger blade safety
- GRIP PANELS: G-10 texture-balanced, fully removable
- OPTICAL MOUNTING PLATE: CNC machined
- CHARGER: Double stack carbon steel with low friction finish
- Made in the USA and backed by Daniel Defense's 100% Satisfaction Guarantee.
