Pack MK18 5.56 + conversion 300 Blk.

This pack contains the following references:

- Daniel Defense MK18 short barrel semi-automatic rifle (DDM4101)
- Upper complete receiver AR15 Daniel Defense Cal.300 blk 10.3" (DDU300)

Features :

Daniel Defense MK18 5.56 (DDM4101):

The civilian version of the MK18 - from the US Navy Seals in SBR (Short barrel rifle)

- Compact (10.3" barrel or 26.2 cm) with rifling pitch of 1:7 (5.56mm) and 1:8 (300 BLK)
- RIS II type handguard with 21 mm Picatinny rail
- Lightweight and adaptable thanks to its 4 Picatinny rails on the front.
- Anodized black cerakote coating.
- Delivered in a polymer case with 1 10-round magazine.
- Made in USA.

The manufacturer [DANIEL DEFENSE](http://www.danieldefense.com) designs the best in AR15 and M4, with unrivaled attention to detail and finishing.

This manufacturing quality allowed this manufacturer from the USA to supply the American USSOCOM.

The MK18 offers the perfect combination of weight, size and performance. It makes it an ideal weapon for CQB (Close Quarter Battle) type combat as well as for TSV Rifle (Speed Sport Shooting)

The best AR-15 Made In USA

A reliable, durable and precise weapon.

BARREL: 10.3" (26.2 cm) free-floating rifled at a pitch of 1:7 (5.56mm) and 1:8 (300 BLK) cold hammered, to military specifications. Made from vanadium chrome moly steel, with black Cerakote finish.

MUZZLE BRAKE: Type A2 "Birdcage" flame hider in steel

LOWER: CNC machined from 7075-T6 aluminum to Mil-Spec standards

UPPER: CNC machined from 7075-T6 aluminum to Mil-Spec standards.

OPERATION: Direct gas borrow with low profile gas borrow block, CNC machined from reinforced 4140 steel.

CYLINDER HEAD GROUP: M16 profile with chrome treatment

HAND GUARD: RIS II type front, equipped with four Picatinny rails: 21 mm Weaver to MILSTD 1913 standards with flexible rail protection in high-strength Santoprene, for better handling comfort and excellent grip.

HANDLE: Ergonomic handle with soft touch coating providing a comfortable, non-slip grip

STOCK: 6-position telescopic stock made of reinforced fiberglass polymer, with Soft Touch coating, compatible with AR15 stock tubes to standard A2 standards.

Comes with a GRIP-N-RIP vertical handle with a 7075-T6 and 6061-T6 aluminum body and soft cover

Flared magazine well for intuitive and quick magazine introduction.

Multiple locations for shoulder straps and Quick Detach (QD) straps

All mechanical parts and barrels produced by [DANIEL DEFENSE](#) are subject to rigorous verification, such as magnetic treatment tests, to detect the slightest defect in the steels.

The MK18 chambered in 5.56 mm caliber allows the use of both 223 Rem ammunition, the civilian denomination, as well as 5.56x45 mm, more military type, with significantly higher pressures generated. Compact (10.3' barrel or 26.16 cm).

Upper complete receiver AR15 Daniel Defense Cal.300 blk 10.3" (DDU300):

A compact barrel upper, suitable for ideal ammunition for firing with a sound moderator.

DANIEL DEFENSE complete upper for AR15 platform with bolt group.

- 10.3" (26.16 cm) cold hammered barrel chambered in .300 Blackout cal. rifled at 1:8 pitch and Daniel Defense type A2 flash hider.
- MILSPEC cylinder head group M16 profile.
- Direct gas operation with low profile gas block.
- DDM4 9" (22.86 cm) RIS type handguard in anodized 6061-T6 aluminum manufactured by CNC with 21 mm Picatinny / Weaver rails MILSTD 1913.
- Picatinny rail cover in flexible, highly resistant Santoprene material.
- QUICK DETACH (QD) sling slot.

Technical characteristics :

- **UPPER RECEIVER :** Mil-Spec, manufactured from 7075-T6 aluminum using a CNC machine, Type III Hard Coat Anodized
- **BARREL :** MIL-SPEC, Vanadium Chrome Moly Steel, cold hammered, with 1:8 rifling pitch, Length 10.3", phosphated
- **OPERATION :** Direct Gas Borrow, Low Profile Gas Block CNC Machined from Hardened 4140 Steel, Phosphated
- **CYLINDER HEAD GROUP :** M16 Profile, Mil-Spec
- **FRONT :** Daniel Defense DDM4 9", CNC machined from 6061-T6 aluminum, Type III Hard-Coat Anodized

Made in the USA!

All [DANIEL DEFENSE](#) parts are subject to meticulous tests and trials, in compliance with military standards (magnetic tests to detect possible defects)

The 300 Blackout is the ideal caliber for mounting a silencer. Working perfectly subsonically, it ensures powerful shots at short distances, with a sound produced that is attenuated.
