Trigger block for AR15.

Discover the ERATAC trigger designed specifically for AR systems. Offering true simplicity of assembly, it eliminates the need to disassemble the weapon or the trigger. Made from lightweight aircraft grade aluminum and hardened steel, this trigger ensures both lightness and strength.

Featuring a single-stage, creep-free mechanism with exceptional sharpness, it allows for precise and rapid shots, while ensuring ultra-rapid rearming for effective follow-up shots. Its functionality allows for easy switching between two preset trigger weights, providing optimal customization to your shooting preferences.

Choose between a curved or straight blade depending on your ergonomic preferences. Additionally, trigger weight adjustment and trigger installation are simplified with just one tool included in the delivery.

Be aware of the condition of your weapon thanks to the intelligent design of this trigger: securing is not possible when the weapon is reversed, ensuring immediate recognition of its charging status.

For additional customization, opt for the optional 90°/45° locking spindle. Compatible with a variety of common AR systems, such as .22lfb, 9mm, 7.62mm, 5.56mm and many others, this trigger adapts to your needs.

Delivered in a high quality, reusable Cordura bag, this ERATAC trigger gives you a quality addition to your arsenal. Compact dimensions of 60mm x 17mm x 70mm and a light weight of 75g, it guarantees optimal performance without compromising the handling of your weapon.
