## Carbon fiber legs and aluminum body.

The Audere SHADOW bipod is designed for sport shooters who demand optimum stability and great flexibility. Its carbon fibre legs and aluminium body reduce the weight to just 300 grams, making it easier to transport and handle the weapon. The height is adjustable between 195 mm and 245 mm, with four adjustment positions every 20 mm, allowing precise adaptation to various shooting situations. The legs can be adjusted independently with five 45° angles, offering increased versatility on different terrains.

**Technical characteristics:**

- **Materials:** Carbon fiber legs, aluminum body
- **Weight:** 300 grams
- **Adjustable height:** From 195 mm to 245 mm
- **Height adjustment positions:** 4 positions every 20 mm
- **Independent foot adjustment:** 5 angles of 45°
- **Interchangeable feet:** Rubber and stainless steel included
- **Tilt adjustment:** 40° range
- **Controls:** Rear-positioned for easy use
- **Compatibility:** Fixing via ARCA rail

In addition, they are equipped with interchangeable rubber and stainless steel feet, included in the box, to adapt to your preferences and ground conditions. The extended lever allows for tilt adjustment over a range of 40°, improving comfort and shooting accuracy. The controls, placed towards the rear, allow the shooter to use them easily without changing position, ensuring intuitive and fast handling.
