Semi-automatic 1911 pistol with milled slide for optics.

The Kimber 1911 KHX Custom (OR) semi-automatic pistol has a milled slide that accepts optical plates for Vortex, Trijicon red dot sights. Equipped with a stiplex front strap for better grip.

- 9x19 or .45 ACP caliber
- KimPro II grey finish stainless steel frame
- Slider material and finish identical carcass with front and rear checkering to improve grip
- 5" (12.7cm) stainless steel match grade barrel with 1:16" (406mm) rifling pitch
- Fiber optic riser and handlebar, raised to sound moderator height
- Hogue G10 Polymer Grip
- Capacity 8+1

The Kimber KHX Custom (OR) is a 1911-style pistol, prized for its reliability and accuracy. With an overall length of 8.7 inches (22.1 cm) and a barrel of 5 inches (12.7 cm), it offers excellent balance for sport shooting. Its weight of 38 ounces (1,077 grams) with an empty magazine provides appreciable stability when shooting. The magazine has an 8-round capacity, providing sufficient autonomy between reloads.

The frame and slide are made of stainless steel with a KimPro II gray finish, ensuring increased corrosion resistance and a modern aesthetic. The front and rear hexagonal grip grooves on the slide make the weapon easy to handle, even in harsh conditions.

The match grade stainless steel barrel, combined with a match grade barrel ring, ensures optimum accuracy. The rifling pitch is 1:16 inches left, optimizing projectile stability.

Sights are designed to coexist with mounted optics, allowing for fast and accurate target acquisition. Hogue Magrip G-10 grips provide superior ergonomics and a firm grip, improving

control while shooting.

The premium aluminum trigger is factory set for a trigger pull of approximately 4.0 to 5.0 pounds, providing a crisp, responsive shooting feel.

The KHX Custom (OR) is distinguished by its machined slide, ready to receive plates for the installation of electronic sights from the brands Vortex, Trijicon and Leupold.
