DDZ04	Daniel Defense Pistol Grip - poignée pistolet	Vente libre	5.08	10.8	3.51	70.00 € incl. tax

The new Daniel Defense pistol grip is an improvement on the old A2 grip.

The handle has been designed with ergonomics and controllability in mind. It shares the angle of the classic 1911 pistol, providing the most natural hand position and comfortable feel. This pistol grip incorporates an oversized trigger guard that covers the gap between the grip and the bottom of the receiver, reducing wear on the shooter's hand and fitting easily over gloves. Installation is simplified thanks to the integrated trigger guard which does not require a pin, thus reducing the risk of damaging the lower part of the receiver. A soft-touch overmolding section improves grip, whether dry or wet.
