DB007	Fourreau fusil prévention anti rouille - Bone Dry	Vente libre	152	25.4	10	1451	200.00 € incl. tax

The Rust Prevention Shotgun Sleeve holds a shotgun (up to 60 inches) and provides peace of mind against moisture and rust.

The BONE-DRI™ Rust Prevention Shotgun Sleeve is by far the ultimate shotgun cover for personal and competitive shooting, designed for storing, transporting and protecting your shotgun from rust after exposure to humidity. With its sturdy construction, durability, cushioning and anti-scratch design, this cover easily stands up to wear and tear.

- Can hold 1 rifle or rifle (up to 60?)
- The anti-scratch design uses Velcro instead of zippers.
- Peace of mind: For your shotgun after exposure to moisture
- Rust Prevention: Designed with patented Absorbits™ full-surface moisture-wicking technology.
- Durable: Made with heavy-duty 800D PVC industrial nylon.
- Padded and reusable: Protect your most valuable possessions
- Carrying options: Shoulder strap, handle, top loop
- Infinitely reusable

MOISTURE-ABSORBING MATERIAL.
DRYOUT™ is a "sandwich" of desiccant packets encapsulated in moisture-wicking nylon.

The moisture removal process lasts from 4 to 24 hours.

US Patent No. 9,771,202

AS A PORTABLE DEHUMIDIFIER.
DRYOUT™ works on the same principle as commercial dehumidifiers, but without the need for electricity. In simpler terms, it's like a moisture vacuum.

It is easy to release moisture. Simply place the case in the sun or dry it using a hair dryer on low heat settings.

INDEFINITE USE.
Unlike cheap disposable desiccants that need to be replaced daily, DRYOUT™ is designed for repeated use and the desiccant inside does not need to be replaced.

DRYOUT™ can be used indefinitely.

Les prix de vente conseillés sont mentionnés à titre indicatif. Les armuriers sont libres de vendre au prix qu'ils souhaitent. Textes et photos non contractuels, sujet à modification.
