BASE79	BASE 79	Vente libre	6.50 € incl. tax
BASE85	BASE 85	Vente libre	12.00 € incl. tax

Robust and precise Weaver bases for reliable optical mounting.

WEAVER Top Mount Aluminum Bases are machined to tight tolerances to provide a precise fit and excellent hold for your **riflescope** . Made from high-strength aluminum, they ensure a stable and durable mount.

- **Material:** High-strength machined aluminum
- **Compatibility:** Weaver Top Mount System
- **Locking system:** Cross-Lock Weaver
- **Manufacturing:** Made in USA
- **Use:** Mounting optics on rifles

A reliable mount for your lenses

Designed for mounting a **scope** on a rifle, these bases provide a stable interface between the weapon and the scope rings. In practice, the quality of the machining is immediately apparent: the fit is clean, without any unwanted play, which helps maintain consistent **zeroing** session after session.

High-strength aluminum construction

Made from precision-machined **aluminum** , they combine lightness and strength. This choice of material allows for a reduced overall weight of the weapon while maintaining excellent resistance to the stresses generated by recoil, even on dynamic calibers used in **sport shooting** or **hunting** .

Cross-Lock Weaver System

WEAVER 's proprietary **Cross-Lock** system ensures broad compatibility with many **Weaver scope rings** . The cross-lock securely anchors itself in the notch, guaranteeing consistent hold and excellent repeatability when removing and reattaching optics.

Additional specifications

- **Mounting type:** Top Mount
- **Finish:** Anti-corrosion treatment
- **Installation:** Screw mounting (depending on weapon configuration)

FAQ

Are these bases compatible with all collars?

They are designed to be compatible with Weaver standard scope rings. It is advisable to check the compatibility of the rail and rifle model before installation.

Can they be used for hunting and sport shooting?

Yes, their robust machined aluminum design and Cross-Lock system ensure reliable scope retention, suitable for the demands of both hunting and sport shooting.

Does the installation require a gunsmith?

The assembly can be carried out by an experienced user with the appropriate tools. To guarantee perfect alignment and preserve the integrity of the weapon, professional installation is still recommended.
