A semi auto shotgun with a Bulrush Max 5 camo finish!

The Fabarm XLR Bulrush Max 5 shotgun is a semi-automatic shotgun chambered in 12/76 caliber, ideal for hunting migratory game. The Ergal frame helps to reduce the weight of the weapon while maintaining rock-solid strength.

The stock and forearm benefit from the Soft Touch coating, a unique treatment to improve grip in the most extreme weather conditions. Once treated, a composite or camouflage takes on a rubbery texture for better grip of the weapon.

The 90 cm barrel allows the projectiles to quickly reach a very high speed and facilitates aiming for more precise long-distance shooting. Thanks to the Tribore HP Barrel process, Fabarm is the only manufacturer to offer the possibility of firing steel ball cartridges in FABARM Inner HP and Exis HP chokes superior to the half choke.

For better support of the weapon when shooting, the weapon is equipped with a pistol grip.

With its weight of 3.20 kg, this weapon will absorb a significant part of the recoil when shooting to relieve the hunter's shoulder.

- caliber 12/76
- 90 cm guns with Tribore HP process and proven 1630 BAR
- 2+1 shot capacity
- Ergal frame with Soft Touch coating on the stock and handguard
- Comes with 5 interchangeable chokes and carrying case
