- Anti-reflective treatment
- Mountings included

Accessories included

- 1 box of 250 Gamo Pro Magnum pellets (pointed head, for penetrating impact)
- 1 box of 100 cardboard targets 14x14 cm

Rapid fire with 10-shot cylinder

The **Gamo Speedster** rifle stands out with its **10-shot rotating barrel** system, a Gamo exclusive. This mechanism allows you to chain shots without manually reloading after each pellet, **saving time** and ensuring **optimal shooting fluidity**.

Sound moderation

Thanks to its integrated **sound moderator**, the gun significantly reduces noise pollution while maintaining power and accuracy. This technology is ideal for use in urban areas or indoor ranges.

Pro Magnum pellets: increased penetration

The pack includes **Pro Magnum pellets with pointed heads**, designed to offer better penetration than conventional flat heads. They are particularly suitable for thick targets or shooting exercises requiring a marked impact.

A scope adapted to the power

The Gamo 4x32 WR scope allows for accurate shooting up to 30 meters. Attached to the rifle's 11mm rail, it guarantees rapid target acquisition, even in changing light conditions, thanks to its coated lenses.
